Harrison Advanced Rods

May1st 2022

Dear Angler,

Rod building at home is growing in popularity. As the UK's premier blank maker, we appreciate how difficult it can sometimes be to find what you need to build a rod and we can help with that. Although we only supply our rods through retailers we will supply blanks and kits to finish them, direct to the end user. We have an ecommerce shop for components www.rivercitytackle.co.uk but for blanks it is often necessary to have a chat before choosing the right blank, so please contact us direct. If you call us, Mike can give you help and advice on 0151 709 5981 extension 2.

We keep a huge stock of blanks and many are available off the shelf, but please check availability, as we can't keep every single item.

All Harrison blanks are made here in Liverpool from the finest materials by a team who have years of experience so you can get expert advice from the guys who designed and mad them.

Steve Harrison

Managing Director

The **Aviator** was conceived to give more choice. It does not replace the **Torrix** but offers more options. The 12' **Plus** is a little more powerful and the **Flex** has a little more playing action, and now we have added a **Plus 2** and **Plus 3**

The **12'6 Plus** was conceived as an upgrade path from the best-selling **Torrix 12'6 TE**. Just a hint more power but with new tapers to retain playing ability and making it easy to load

The **13' Aviator Plus** is a 3.5lb distance rod with a lovely easy casting action, and we now have a **13' Plus 2** at 3.75lb. The **Aviator 13' TE** is a beast designed with no compromise to give the ultimate distance capability
