The **Aviator** was conceived to give more choice. It does not replace the **Torrix** but offers more options. The two 12' rods sit either side of the ever-popular **Torrix 12 3.25**.

The **Plus** is a little more powerful and the **Flex** has a little more playing action.

The **12'6 Plus** was conceived as an upgrade path from the best-selling **Torrix 12'6 TE**. Just a hint more power but with new tapers to retain playing ability and making it easy to load.

The **13' Aviator Plus** is a distance rod with a lovely easy casting action, whilst the new

**Aviator 13' TE** is a beast designed with no compromise to give the ultimate distance capability.
